John -

After reading this bulletin from D/Om B, it appears that an Agency Notice should be prepared. The Comptroller, General Counsel, and O.L.L. are probably most concerned with the subject matter of this bulletin. Thus, they would be the most logical components to draft such a notice. It also would seem most appropriate that the ExDir and ODCI review the draft at some point.

There are DDA equities and these would be addressed along with those of other major components

during the coordination of the
proposed notice when
RCD receives it for processing.
